About This Content

HEX: Doombringer Bundle

Hogarth's meddling has brought something dire into Entrath. The Enders are pouring through the Worldscar and the tournament at the Frost Ring Arena is in disarray. But, the teams won't go down without a fight! The Enders may be numerous and flexible, using the keyword Fusion to combine themselves and adapt to any situation, but each team has all-new strategies which they can

use to resist. Bring the beats with Rowdy and get value for playing more expensive cards. Overwhelm your opponents with Rabid abilities which trigger on attack, or simply use new elite troops requiring multiple blockers (Feral). And if the worst should happen, the new Rebirth keyword will ensure your troops live to fight another day. Will the Enders consume the entire world, or will the teams come together in the face of this awesome threat? Find out today!

This bundle comes with a total of **6 boosters** from the ninth card set in HEX, “Doombringer”. Paired with **10 pieces of shiny equipment** to enhance your cards on the battlefield, this collection gives you the tools to survive the mysterious Enders which are invading the Frost Ring Arena. Additionally, there are a few **consumables** and one of our **rare cosmetics** in this pack – as well as some in-game currency to give you a little boost.

Install **HEX: Shards of Fate** on Steam to be able to use the contents within this bundle.

BUNDLE CONTENTS

BOOSTER PACKS

- 6x “Doombringer” Booster Packs

This card set comes with new keywords: “Fusion”, “Rowdy”, and “Rabid,” "Rebirth," and "Feral."

EQUIPMENT (*PvE Only*)

Equipment is one of the great innovations HEX brought about in the Trading Card Game genre, made possible by the digital nature of the game. Items modify your cards by altering their attributes or effects, and giving you another option to customize your deck. Equipment can be acquired on your many adventures, through victory in battle, opening treasure chests, and completing quests in the campaign. Items come in varying rarities, similar to cards and improve or enhance your already powerful cards.

- 1x Archive Wand
- 1x Attuned Robes
- 1x Big Hitter
- 1x Cap of Night
- 1x Doomsayer's Sign
- 1x Fangstorm Boots
- 1x Galeforce Gauntlets
- 1x Glimmering Coif
- 1x Painstoke Sabatons
- 1x Sweet Tooth

CONSUMABLES

- 4x Common Stardust

Unlock extended card artwork with this magical material. Each card needs a single Stardust of matching rarity to reveal its complete artwork to you. Which cards will you choose?

SLEEVE

- 1x “Doombringer” Deck Sleeve

Sleeves are not quite the same in a digital Trading Card Game. You can still customize your deck with a cool card back, but you don't have to apply the sleeve to every individual card: just select the one you like and you're all set!

CURRENCY

- 2,500 Gold

Gold is the in-game currency for **HEX** and can be earned in much the same way as equipment, through victories in battle, completed quests and challenges. Gold can be used much like the premium currency Platinum: you can spend it in the auction house, on individual cards, entire booster packs and almost everything else that's put up for sale by other players. Gold is also used to upgrade loot chests through Kismet's Well that rewards the fortunate with rare rewards.
